Summary

Front End Developer specializing in the JavaScript programming language. Experienced with all stages of the development cycle for dynamic web projects. Well-versed in the JavaScript programming principles for both client side and server-side implementations. Highly adept at creating commercial web products using different web technologies, frameworks and coding standards such as HTML5, CSS, ReactJS, Gatsby, SASS & BEM. Recently took an interest in the JAMSTACK architecture and have gained valuable skills using Gatsby Js. In-depth knowledge of all programming principles with academic knowledge in several programming languages such as PHP, Java, C and C++. Additionally I also have valuable hands-on experience as an IT Support Technician in a demanding work environment.

Skill Highlights

- Profound analytical & problem-solving skills using IT solutions
- Creative UX/UI designs using frameworks such Material UI & Bootstrap.
- Sufficient grasp of database and backend concepts such as using MySQL & Mongo Db with Express and NodeJS.
- Well conversant with Windows OS & all versions of Microsoft Office Suite.
- Basic maintenance of computer hardware and peripherals.
- Excellent communication and presentation skills.
- Solid grasp of JavaScript language particularly React and Gatsby Js.

Work Experience

IT Support Technician - 05/2019 to 08/2019

Kenya Ports Authority, Mombasa

- Together with a team of 4 colleagues we undertook a project to design and install Digital Email Signatures to all the employees to enhance authenticity of communication within the company.
- Lead a team of support technicians in performing OS upgrades from windows 7 to 10 on more than 150 PCs and also provided basic training to employees on the usage of the new Office 365 suite resulting to an increase in overall productivity of employees.
- Worked with senior support staff to respond and service SAP related issues to ensure smooth running of day to day operations.
- Responded to calls from employees at the IT Support Help desk on different support issues and diligently serviced their requests either remotely or with the help of other support staff in the field.

Education

Bachelor of Science: **Computer Technology**
Multimedia University of Kenya, Nairobi
2015 - 2021
